

IMPORTANT INFORMATION REGARDING SMARTPHONE INSURANCE

The smartphone insurance provided by compucover contains a clause that covers “unauthorised calls” and therefore the regulatory position is different from other policies we offer.

Providing you are an Appointed Representative of Summit Insurance Services Limited and selling to the end user there are no implications, however if there is anyone else involved in the sales channel this would not be following regulation and would not be classed as a “connected contract” defined as <https://www.handbook.fca.org.uk/handbook/glossary/G1364.html>

As from now, smartphone insurance must only be sold direct to end users and not via an extended distribution chain.

If you are unsure of what this means or would like further explanation, please contact Liz Ballantyne 01788 563100 or alternatively Elizabeth.ballantyne@compucover.co.uk
